

### Remarks

Claims 1-34 are pending and stand rejected. Claim 8 and 22-34 have been cancelled. Claims 1 has been amended. Applicants assert that the claims are now in condition for allowance as set forth more fully below.

### 112 Rejections

Claim 1 was rejected under 35 USC §112, second paragraph for failing to point out and distinctly claim the subject matter which the applicant regards as his invention. Claim 1 has been amended to provide proper antecedent basis. The phrase “the terminal displaying the POS application” has been changed to “the terminal displaying a POS application” and phrase “over the first and second networks” has been changed to “over a second network”. Applicants assert that claim 1 now has proper antecedent basis and that the rejections can now be withdrawn.

### 103 Rejections

Claims 22-34 stand rejected under 35 USC §103(a) as being unpatentable over Fang (US Pat 6,243,816) in view of Auvenshine (US Pat 6,725,238) and various other references. Claims 22-34 have been cancelled, therefore the §103 rejections are moot.

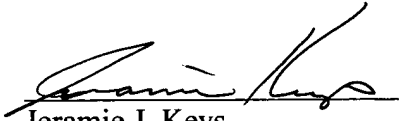

### Conclusion

The Office Action indicated that Claims 1-21 contain allowable subject matter and would be allowed should Applicants overcome the rejections under 35 USC §112, second paragraph. Having amended claim 1 to correct the §112 rejections, Applicants assert that the application including claims 1-21 is now in condition for allowance. Applicants request reconsideration in view of the amendments and remarks above and further request that a Notice of Allowability be provided.
